

Customer Information – Inova MK1 Assembly Service

Thank you for choosing the **Inova MK1 DIY 3D printer kit**.

If you have also selected our **assembly service**, please read the following important notes:

About the service

- The Inova MK1 is always sold as a **DIY kit**.
 - The assembly service is an **optional technical assistance** where your kit is put together following the official SLS4All instructions.
 - We do not add modifications, upgrades, or extra testing.
-

Legal status

- The assembled unit is **not CE-marked** and does not include an EU Declaration of Conformity.
 - The printer is intended **only for your personal use**.
 - It is **not certified for resale, rental, or commercial operation**.
 - The device **is not considered a product placed on the market** according to Directive 2006/42/EC (Machinery Directive) and 2014/30/EU (EMC Directive).
-

Your responsibility

- As the end user, **you are responsible for putting the device into operation and for safe use**.
 - Please carefully follow the provided manuals and safety recommendations.
 - If you ever wish to resell or commercialize the printer, you must ensure compliance with relevant legal requirements (including CE marking).
-
